## DETAILED ACTION

### *Drawings*

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "mirror attachment" (see claim 77) must be shown or the feature canceled from the claim. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. In addition to Replacement Sheets containing the corrected drawing figure(s), applicant is required to submit a marked-up copy of each Replacement Sheet including annotations indicating the changes made to the previous version. The marked-up copy must be clearly labeled as "Annotated Sheets" and must be presented in the amendment or remarks section that explains the change(s) to the drawings. See 37 CFR 1.121(d)(1). Failure to timely submit the proposed drawing and marked-up copy will result in the abandonment of the application.

***Specification***

3. The disclosure is objected to because of the following informalities: there is no description of the "mirror attachment" (see claim 77, line 9).

Appropriate correction is required.

***Response to Arguments***

4. Applicant's arguments, filed on 03/17/2008, with respect to claims 77-87 have been fully considered and are persuasive.

***Allowable Subject Matter***

5. Claims 77-87 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 77, the prior art of record neither shows nor suggests a wall mirror wherein at least a portion of the mirror surface is clear as glass or totally transparent and is backed by a flat screen or a color display, the flat screen or the display being attached to the frame, and wherein the mirror surface is part of a mirror insert which is associated with the frame to form a closed mirror interior.

### ***Conclusion***

7. This application is in condition for allowance except for the following formal matters:

- a. The drawings must show every feature of the invention specified in the claims. Therefore, the "mirror attachment" (see claim 77) must be shown or the feature canceled from the claim.
- b. The disclosure is objected to because of the following informalities: there is no description of the "mirror attachment" (see claim 77, line 9).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
